

Helping Plaintiff Attorneys Build Stronger Cases for Injured Patients

*Every medical record tells a story. My job is
to uncover the facts that matter.*

*From the operating room to the courtroom, I help plaintiff attorneys uncover
the facts that matter.*

25+ years clinical, surgical, and healthcare-operations experience

Worked in both hospital and outpatient settings

Meticulous fact-finder

Savvy, high-impact analyst

WHY ATTORNEYS WORK WITH ME

Meticulous. I'm a dogged fact-finder who knows what to look for, and I uncover facts that others often miss.

High-Impact. I leverage my varied healthcare experience to connect the dots and draw inferences that consultants with narrower experience may miss.

Devoted. As a sole proprietor and patient safety activist, every engagement is personal.

ABOUT MONICA

Former surgical technologist, clinical practice manager, and surgery center director with more than 25 years of experience in hospital and outpatient settings.

I also co-founded a telehealth company and am a patient safety activist.

I bring clinical, surgical, operational, administrative, and patient-safety perspectives to complex plaintiff cases.
